Dear Harold-

Oct. 30, 1968

Big exam tomorrow & no time to write. My eye slows down my reading & I didn't count on this & am therefore behind on work.

Hal wrote me about the 2 pgs. from CD 131 and says you or Paul have them, but they were on the list of things neither of you had.

Will send copy of Lifton letter in near future. It's crucial that no one knows you're getting copies. The security in LA & elsewhere is far too bad.

Enclosed is a Christian Crusade publication which will be of some help in N.O. if you run into Carlos. That's the only reason I took time to write.

Hal told me about possible prior attempt to kill RFK.

Have you heard about SS agent's wife getting killed? Also, my tip on the guy who bought Ray's story came a little late - it's now out in Look.

Trying to find time to keep up with indirect source on SS. Want also to go see Barbara Bolden, Fowler (re: Penaloza), & friend of Thornley. Many public appearances are rewarding but tiring. Still no luck on money for Corp.

Take care

Gary

P.S. Did not meet w/ Hargis because of danger one of his people in Twin Cities would enlighten him as to my purposes. A straight-forward approach would be of no use with a guy that paranoid.
